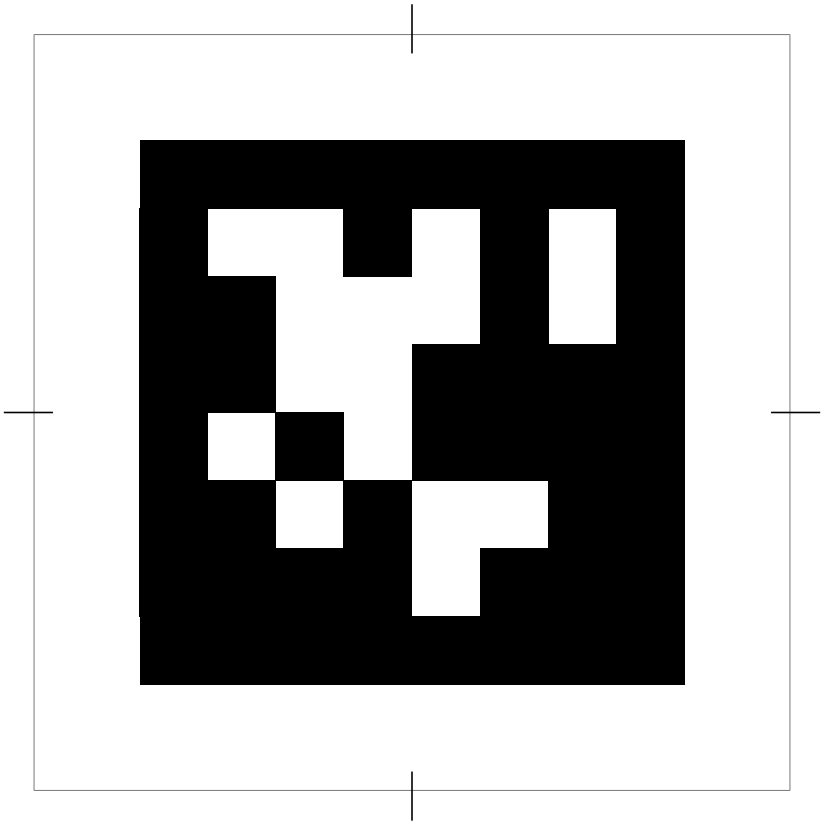
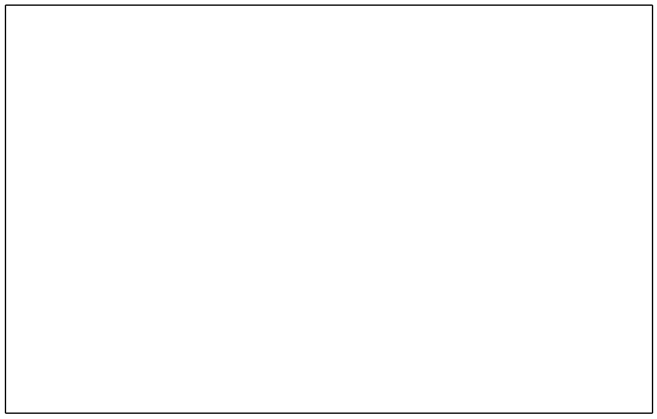
tag36h11 ID 0 - 90 mm printed, on a 100 mm carrier

Nominal detection edge (tagsize): 72 mm, the outer edge of the black square. Measure yours with calipers.

Cut on the grey square. The black ticks mark the carrier’s centre lines; keep the white margin clean.



Scale check: this line is 100 mm, and the box below is the size of a credit card (85.60 x 53.98 mm).
Lay a card on the box. If its edges do not land on the lines, reprint at 100% with fit-to-page off.



hpc-vbt-live, probes/bar-end-tag. Tag pattern from AprilRobotics/apriltag-imgs (BSD-2-Clause).

tagStandard41h12 ID 0 - 90 mm printed, on a 100 mm carrier

Nominal detection edge (tagsize): 50 mm, the inner edge of the black ring. Measure yours with calipers.
